

Stone Age Illustrations OPTIONAL Project

You need to illustrate life in BOTH the Paleolithic and Neolithic Ages. You will also compare and contrast how people survived during each of these time periods.

You will need to demonstrate the answers to the following questions:

1. Where did they live during this period?
(types of "homes", etc.)
2. How did they survive during this time?
(survive includes get food and stay safe!)
3. What "jobs" did people do? *(different tasks to help the group?!)*
4. What "new" technology did they use to make their lives easier/better? *(include 3 most important for each!)*
5. How did the technology impact, change, or improve their lives?! *(this will need to be explained in the captions!)*

Under each illustration, you need to include a caption (a paragraph) that explains/describes what is shown in that panel. Captions must be written in complete sentences, explain details, and include **ACCURATE FACTS**.

You must use at least **10 vocabulary words** appropriately. There are **11 vocab** terms on your **syllabus**! Please make the vocab stand out by 1) numbering them, 2) **writing in bold**, **AND** 3) **USING ALL CAPS**. This will help ensure you get the most points possible!

Take pride in your work! Make sure your **illustrations AND captions** are complete and as neat as possible.
