

KINDNESS

BY JASON

Kindness

Is a language which the deaf can hear and the blind can see'

-Mark Twain

One way to be kind is to give food to the homeless.

Another way to be kind is to help the people that fall down and help clean the blood too.

Anther way to be kind is to think of the person first instead of your self.

I think kindness is important because being kind will always make you feel better because being kind will never stop if you stay kind.
