

Kindness

If the world didn't have kindness, I would think that there will be a CRAZY war going on. But we have kindness and kindness makes us happy and may be helpful to people!

In this TV show called Sonic X, when Sonic was fighting Perfect Chaos, he used kindness to become super!

In Signal Hill School a friend named Vincent was kind to me, and we became friends! He showed me where everything was and he knows all the games that I know!

I believe in kindness because it makes everybody happy! We help people, and we take care of people. We make friends together and play together. We share with people, and we do something with them, and we do everything together.
