If I could chose the community I lived in it would be an urban community. I would like to live in an urban community because I like to go down town and go shopping. I also like the candy shops, and I like the restaurant food. I also like hotels so I think I would like a apartment. I would have a different chose of great jobs. I could go to the park every day. I would also visit my cousin often who lives in a urban community. Some people think it would be boring in a urban community, but I think it would be fun. Would you like to live in a urban community? Now you know that I would. It would be so much fun!
