I want to live in a suburban community when I grow up. The reason I want to live in a suburban community is because it's not too noisy, and it's not too quiet, it's perfect. Another reason I want to live in a suburban community is you're not too far apart, you're not too close to each other you're as close as you want to be. One more reason I want to live in a suburban community is because I want to live next to a city. I would love to live in a suburban community when I grow up.
