What community should I live in? I would live in a urban community. I would live in a urban community because I like noise. The city always has lots of noise. I also like the restaurants there. It was very good when I ate at a restaurant there. I also like to walk on the sidewalks and look at the tall buildings around me. I would feel the wind blowing on my face. That's why I want to live in a urban community when I grow up.
