

Join us to explore various math topics deeper through excitement of collaborative activities and live discussions of

# MATH CIRCLE

We meet on once a week, on Mondays after school till 4:15 late bus in room A-20. Each meeting we'll spend about half time working "math circle" style, concentrating whenever possible on topics outside the school curriculum. The other half will be devoted to problem solving, mostly from major math competitions such as AMC 8 and MathCounts.

We welcome students grades 6 to 8, and will make sure everyone – regardless your level - will find something to sink their teeth into!

First introductory meeting Monday, September 19th, rm A20

**Make sure to bring your pencils - and your curiosity!**
