November 23, 2020

Dear Parents/Guardians:

This letter is to inform you of 2 positive COVID-19 cases that have been reported. First, an individual at Osage Elementary School tested positive on November 21, 2020 but was last in the building on November 16, 2020. No additional individuals will be required to quarantine in this case. Second, an individual at Kresson Elementary School reported positive test results for Coronavirus Disease 2019 (COVID-19). Due to the circumstances in this case additional individuals will be required to quarantine out of an abundance of caution and health department guidelines. The District is coordinating closely with public health officials and following CDC, state, and local health department guidance in order to assure the health and safety of our community. Please know that if any staff member or child were determined to be a close contact you would have already been notified as well.

Cleaning and disinfecting of all exposed areas was completed. The District continues taking precautions to prevent the introduction and spread of viruses and other germs and is cleaning frequently touched surfaces daily. The District has also utilized the ultraviolet sanitation equipment in all of our schools nightly. The status of this situation is fluid, and we are monitoring it closely.

We understand the level of concern regarding COVID-19. We encourage parents and students to continue following the [Centers for Disease Control & Prevention](#) promoted safeguards, such as:

- Staying home when you are sick;
- Washing hands often;
- Covering coughs and sneezes and properly disposing of tissues;
- Limiting close contact with people who are sick and not sharing food, drinks and utensils;
- Practicing social distancing (staying at least 6 feet apart);
- Wearing a face covering while in school; and
- Continuing to monitor your health for symptoms.

As always, we appreciate our community's support and cooperation. You can assist us by remaining vigilant but sensible in your approach to dealing with this health concern. Should you have any questions about this situation, please feel free to contact my office at (856) 751-8446 ext. 6122.

Sincerely,

Dr. Gentile
